

# HEALTHY HORSE

**HIGH STRENGTH PROBIOTICS FOR OPTIMUM EQUINE HEALTH AND NUTRITION**  
**PURE CONCENTRATE**

**Healthy Horse is sourced from high quality ingredients that are formulated with very high active ingredient levels to have a significant impact on the health and nutrition of your horses.**

### The key ingredients are:

1. A blend of 5 micro-encapsulated bacteria. These bacteria proliferate in the lower gastro-Intestinal (GI) tract where 75 – 80% of all mammals' antibodies are produced. Daily seeding of these bacteria are needed through feeding Healthy Horse to assist these bacteria to inhabit and proliferate, thereby helping to exclude pathogens and boost the immune system.
2. A specific strain of active live dry yeast. (*Saccharomyces Cerevisiae*) This yeast stimulates cellulose digesting bacteria, improving fibre digestibility. It also stimulates lactic acid utilizing bacteria. Research in cattle has shown that it is equally as effective as sodium bicarbonate in stopping the rumen PH from dropping, thus preventing acidosis. Therefore with horses it can be used to reduce colic and acidosis.
3. A blend of 5 digestive enzymes working on protein starch cellulose fat and pectin. These result in better feed breakdown and more surface area for microbes to work on.

### Results observed by a range of people in the horse industry:

1. Changes the demeanor of horses with underlying gut problems. They are more relaxed when riding and perform better.
2. Overcomes problems when feeding a lot of grain and grazing volatile rye grass pasture: Less ulcers and colic.
3. Improves feed conversion efficiency so less hard feed is needed to maintain horses. There is noticeably less dung in stables indicating that horses are getting better utilization of their feed.
4. Improves horse's immunity. Great when used during and after antibiotic treatment.
5. Improves coat condition and resilience to cold weather.

### Prices:

1kg \$209 + GST/Postage  
(200 doses)

2.5kg \$495 + GST  
(500 doses)

### Dose rate:

Competing horses – 5 gm/day. This is a pure concentrate containing no fillers or additives hence a strong dose at just 5gm. (Use the higher dose for transporting horses. Non - competing horses 3gm)

### Note:

**Healthy Horse** is 100% natural and can be used on race day.

### Testimonials

“Best product I have used to settle down my horses and get rid of underlying gut problems.”

“I had a horse with colic when feeding 6kgs oats per day. This horse was also a bleeder. When I introduced healthy horse the colic stopped, and to my surprise the bleeding ceased within two weeks, not to return again. He was able to race again and was stronger than ever. I noticed a significant decrease in manure on ground. All my horses had more energy, which was very noticeable on the training track with greatly improved recovery times, this product takes away the worry and problems normally associated with feeding high performance horses.”

“I noticed my horses were putting on weight on Healthy Horse so I was able to cut down on their meal by 1.5kg/horse.”

“I only need one cover on my horses in winter not 2 and the coat condition stays beautiful.”
